

The Network Effect

W

Harnessing the power of your network

Wednesday 26th October at 6pm

Judith Perle (co-author of *The Network Effect*) looks at the whys and hows of networking from an unusual perspective: instead of focusing on the mechanics of 'working a room' she examines how networks really work.

So if you'd like to find a better job, do better at work, boost your professional profile or simply feel more comfortable walking into a room full of strangers, you'll find this event useful.

Tickets £3, available in-store and including a complimentary drink.

Please ask a bookseller for further information.
