AC3143 Valuation and Securities Analysis

General information

MODULE LEVEL: 6

CREDIT: 30

NOTIONAL STUDY TIME: 300 hours

MODE: Locally Taught and Independent Learner Route Only (not available for Online Taught students)

Summary

This course provides insights and understanding of security analysis and valuation from both theoretical and empirical perspectives. It is aimed at students who are interested in equity research, corporate finance, and fund management.

Conditions

Please refer to the relevant programme structure in the EMFSS Programme Regulations to check:

- where this course can be placed on your degree structure; and
- details of prerequisites and corequisites for this course.

You should also refer to the Exclusions list in the EMFSS Programme Regulations to check if any exclusions apply for this course.

Aims and objectives

This course is aimed at students interested in equity research, corporate finance, and fund management. It is designed to provide the tools, drawn from accounting, finance, economics, and strategy, required to:

- analyse the performance of securities,
- value securities,
- assess returns on active investment strategies.

Furthermore, it provides empirical evidence on returns to fundamental and technical analysis.

Learning outcomes

At the end of this course, and having completed the Essential Reading and activities, students should be able to:

- Carefully analyse the financial performance of given securities and critically review equity research published by financial analysts.
- Competently apply valuation technologies required in corporate finance with minimum guidance.
- Critically assess third-party valuation reports.
- Recall main insights and key facts of the fund management industry.
- Clearly recognise the difficulties associated with measuring abnormal returns in fundamental and technical analysis.

Employability skills

Below are the three most relevant employability skills that students acquire by undertaking this course which can be conveyed to future prospective employers:

1. Complex problem solving
2. Communication
3. Digital skills

Essential reading

For full details please refer to the reading list.

Palepu, K., V. Bernard and P. Healy. *Business Analysis & Valuation*. (South-Western College Publishing) fifth international edition [ISBN 9781133434863].

Penman, S. *Financial Statement Analysis & Security Valuation*. (McGraw-Hill) fifth edition [ISBN 9780071326407].

Assessment

This course is assessed by a three-hour and fifteen-minute closed-book written examination.
